PROJECTS

Kalyani (Android app)

It is the live project of showing various government schemes for the citizen of India with or without login in the application.

Three way authentication system(Java app)

It is the application which provides the user with six different security options to lock his file/folder/ any document by selecting any three way.

Mini Mario (Desktop Java Game)

We tried to implement a game in which there is a player who has to kill enemies and collect coins to score points

Smart Attendance System(Android app)

In this project, we have two separate logins one for teachers and one for students. Teachers can login to add new students to particular semester and course. The students can login to marks his/her attendance
